

# Energy Efficiency Case Study

Brought to you by National Grid

## Beverly Bootstraps

Beverly Bootstraps is a non-profit social service agency serving the greater Beverly, MA area for 25 years. They serve people in need through food assistance, case management, and adult and youth education.

## Energy Efficiency Solutions and Savings Summary

Installed: Indoor LEDS

Knowing the value of proper LED lighting, as well as National Grid's incentives, made upgrading to LED lighting a seamless and cost-effective choice.

**“We had a terrific experience with National Grid’s energy efficiency program. It was well-managed, people were very responsive, the product was installed correctly the first time and the cost effectiveness was very important for a non-profit. Best of all, it has made a very positive impact on our students’ ability to learn and succeed in their goals.”**

Sue Gabriel,  
Executive Director

## Mass Save as a Strategic Partner

Whether you are building a new manufacturing facility, upgrading old, inefficient equipment or manage a property in need of energy improvements, the Sponsors of Mass Save will help you identify cost-effective energy efficiency improvements, provide technical assistance, and offer financial incentives in addition to interest-free loans to help kick-start your company's next big project. To learn about these and other commercial and industrial energy efficiency programs available, visit [MassSave.com/Business](http://MassSave.com/Business).
