

This list is provided as confirmation that these contractors have been trained in quality installation protocols through the Cool Smart program, helping to ensure that your equipment operates according to manufacturer's specifications. Sponsors do not endorse or warrant the performance of installed or serviced equipment, or the business practices of these contractors, either expressly or implicitly. Program sponsors make no warranties or representation of any kind regarding the services provided by these contractors.

## Massachusetts COOL SMART Premier Contractors

Trained by Cool Smart, these contractors offer all aspects of ENERGY STAR Quality Installations to their customers.

Cool Smart Premier Contractors perform complete system diagnosis in addition to all standard QIV services and testing. Upon customer request, they can test attic ducts for leaks, and will seal the ducts so all the conditioned air is delivered to your living space. Duct sealing and repair is typically offered as a separate service, but the energy savings and air quality benefits will justify the repair costs.

Premier Contractors	New Equipment Installation and QIV testing	Digital tune-ups on existing systems	Duct Testing and Duct Sealing services	ENERGY STAR® Quality Installation (ESQI)
