

Mass Save® Participating Independent Installation Contractors

The contractors on this list participate in the Mass Save Home Energy Services Program and serve National Grid customers. Participating Independent Installation Contractors work with Mass Save Energy Specialists to implement weatherization measures based on the program eligible recommendations from your Home Energy Assessment.

In order to participate in the Mass Save Home Energy Services Program and to work with the contractors listed, you must:

- Have an active National Grid gas account OR active National Grid electric account in a non-gas-heated home
- Occupy a 1 to 4 family home

Insulation work associated with new construction, additions, renovations or any other projects where weatherization work is required to be completed in order to meet state or local codes are not eligible for the Home Energy Services Program incentives. Other restrictions may apply. Please note, National Grid and Mass Save do not endorse, guarantee or warranty any particular contractor, manufacturer or product. All Participating Contractors have provided proof of licenses and insurances in the state of Massachusetts and have completed program required training.

Mass Save offers standardized pricing for program-approved weatherization improvements for your convenience, soliciting several quotes is not required.
