

Trainer Recommended Tools

Tool Requirements

For purposes of the measureQuick training, the following Bluetooth devices are required of measureQuick Trained Contractors:

- (3) Pipe Clamp Thermometers
- (3) Humidity/Psychrometer Probes
- (2) Refrigeration Pressure Probes
- (1 or 2 depending on manufacturer) Differential Pressure Probes/Manometer
- (1) Power Clamp Meter

If tools must be purchased, please retain a copy of the receipt. **We offer tool reimbursement of up to \$150 once a technician completes three qualifying measureQuick submissions.**

Makers such as Fieldpiece and Testo are HVAC industry brands offering these Bluetooth enabled devices.
