2019 Eligibility Requirements

1. Qualifying projects:
 - a. Multi-family building of 4 or more stories and 5 or more units.
 - b. Multi-family buildings of 3 or less stories with master-metered natural gas primary heating system.
2. Energy Model completed by program supplied modeling software
 - a. Energy Model will be completed by a program Building Energy Technical Specialist using project information provided by participants
3. All projects are required to register prior to the start of construction.
4. The submission of these Terms and Conditions does not guarantee receipt of incentives. A summary of the anticipated incentive award is provided in the Offer Letter.
5. Incentive payments are directly tied to a project's modeled energy performance. Any changes to the design or specifications of the projects may result in a change in incentive(s).
6. Final incentive amounts are based upon the verification of installed measures as determined at the end of the construction process. The incentives awarded are to assist in the defrayment of verification cost to the participant and help cover some of the incremental costs. The participant may need to contribute to the construction costs of achieving higher energy performance.
7. Participants who receive equipment or energy efficiency measure incentives through the Program are not eligible to receive them directly through any other utility or energy efficiency service provider sponsored program.
8. Incentives associated with this Agreement are for buildings built in the service territory of the electric Program Administrator. For buildings built in an area serviced by a municipal electric company and heated by natural gas, incentives will be paid on a case-by-case basis and only then by the appropriate gas Program Administrator.
9. Incentive offers are based on building information (square footage, number of units, number of stories, common spaces, etc.) submitted at time of application. Actual incentives paid will be based on the building as built and any differences will result in adjustments in the incentive award. The program reserves the right to request As Built documentation to verify final incentive payments.

Program Administrators make no warranties or representation of any kind whether statutory, expressed or implied, including without limitations, warranties or merchantability or fitness for a particular purpose regarding equipment, materials or services provided by a manufacturer or vendor.

The Program Administrators of the Program, its agents, and employees are indemnified against all loss, damage, expense, and liability resulting from injury to or death of persons, and against all injury to property arising out of or in any way connected with the performance of this Agreement.
12. This project will be receiving incentives through the Massachusetts Residential New Construction Program directly. Equipment Distributors, please do not include an upstream program incentive in the bid response, as this project cannot be reported through the Commercial Upstream Program.
