### Terms & Conditions

**Equipment Requirements:** Equipment must meet minimum efficiency requirements as specified on this form.

**Application Form:** This application must be filled out completely, truthfully and accurately. The customer must date and submit the completed application along with all required documentation for specific rebates and/or incentives. By submitting the rebate application, the customer agrees to abide by these Terms and Conditions. Program is subject to change without prior notice, including rebates and incentive levels.

**Time Limit:** Qualifying units for equipment rebate must be purchased and installed between January 1, 2024 and August 31, 2024. Applications must be postmarked by September 30, 2024.

**Payments:** From the time the application is processed and approved, please allow 6-8 weeks for payment. Payment processing will take longer if information or documentation is missing from the application. For customers that wish to designate their rebate payment directly to their contractor, contractors must first register with and be approved by Mass Save. If contractors are not registered and approved, or if the payee information is different from the account holder information, additional time will be needed for payee verification.

**Geographic Requirements:** Offers valid only for residential electric customers in Massachusetts where the Mass Save Heating and Cooling Program is offered by Cape Light Compact, Eversource, National Grid and Unitil (referred to as the Sponsors).

**Rebate Limitations:** This rebate is only available to existing account holders and is not applicable to new construction projects. This rebate is only available to residences that are occupied full time during the winter heating season. This rebate may not be combined with any other utility or energy efficiency service provider offer for the same equipment. This limitation does not apply to the HEAT Loan financing program. Other, non-Mass Save rebates or incentives may also be used. Rebate amount not to exceed total install cost (excluding sales tax and all installation costs) and may be subject to change without notice.

**Proof of Purchase:** A copy of the customer's invoice listing the total install cost by system of the purchased equipment must accompany each rebate form. The invoice must indicate the equipment make, unit model numbers, installation date and address, total install cost and proof of payment.

**Approval and Verification:** The participating Sponsor reserves the right to conduct field inspections to verify installations prior to payment.

**Tax Liability:** Sponsors will not be responsible for any tax liability that may be imposed on the customer or contractor as a result of the payment of rebates.

**Endorsement:** Sponsors do not endorse any particular manufacturer, product, system design or technology in promoting these offers.

**Limitation of Liability:** Sponsors and their rebate administrator's liability is limited to paying the rebate and incentive specified. Sponsors and their rebate administrator are not liable for any consequential or incidental damages or for any damages in tort connected with or resulting from participation in these offers.

**Liability & Release:** As part of the consideration for participating in the program, customer hereby releases and shall indemnify, hold harmless and defend the program Sponsors, their affiliates and member utilities and energy efficiency service providers, and the rebate administrator from any and all claims, losses, harm, costs, liabilities, damages and expenses (including attorneys' fees) of any nature whatsoever arising directly or indirectly out of or in connection with the installation of the equipment at the premises or any material and labor required for such installation.

**Warranties:** SPONSORS DO NOT WARRANT THE PERFORMANCE OF INSTALLED OR SERVICED EQUIPMENT, EXPRESSLY OR IMPLICITLY. Program administrators make no warranties or representations of any kind, whether statutory, expressed or implied, including, without limitations, warranties or merchantability or fitness for a particular purpose regarding the equipment or services provided by a manufacturer or vendor. Contact your contractor for details regarding equipment performance and warranties.

**Electric Benefits:** Other than the energy cost savings realized by customer, the Sponsor is entitled to 100% of the benefits and rights associated with the energy-efficient measures, including without limitation ISO-NE products and all other attributes, credits or products associated therewith under any regional initiative or federal, state or local law, program or regulation, and customer waives, and agrees not to seek, any right to the same.
